January 29 ,1920.

Mrs.Agnes Chase ,
Assistant Systematic Agrostologist ,
Washington ,D.C.

Dear Madam:

In response to yo ur letter of January 13 ,I am sending you a package containing 326 sheets of grasses; I tried to select those that I tho ught you would be the least apt to have already ,although there may be some of the Baker collections , from Cuba for example , that you may have had material of. I shall be glad to receive such exchange as you think this worth.

Very truly yours ,
